

# Washtenaw Contractors Association

## U of M CONSTRUCTION UPDATE

Washtenaw County's biggest "engine" for the local construction industry continues to be the work undertaken by the area's major public construction users, particularly the University of Michigan. It has been more than two years since we have had a campus-wide overview of all U of M construction projects. At our next meeting, Marina Roelofs, Executive Director - Architecture, Engineering and Construction, and Tom Abdelnour, Assistant Director, will review U of M's future construction plans.
